Paving Schedule

Street Rating

Street Defects

PavePHL

- Interactive paving tool that allows access the Streets Department most up-to-date paving information.
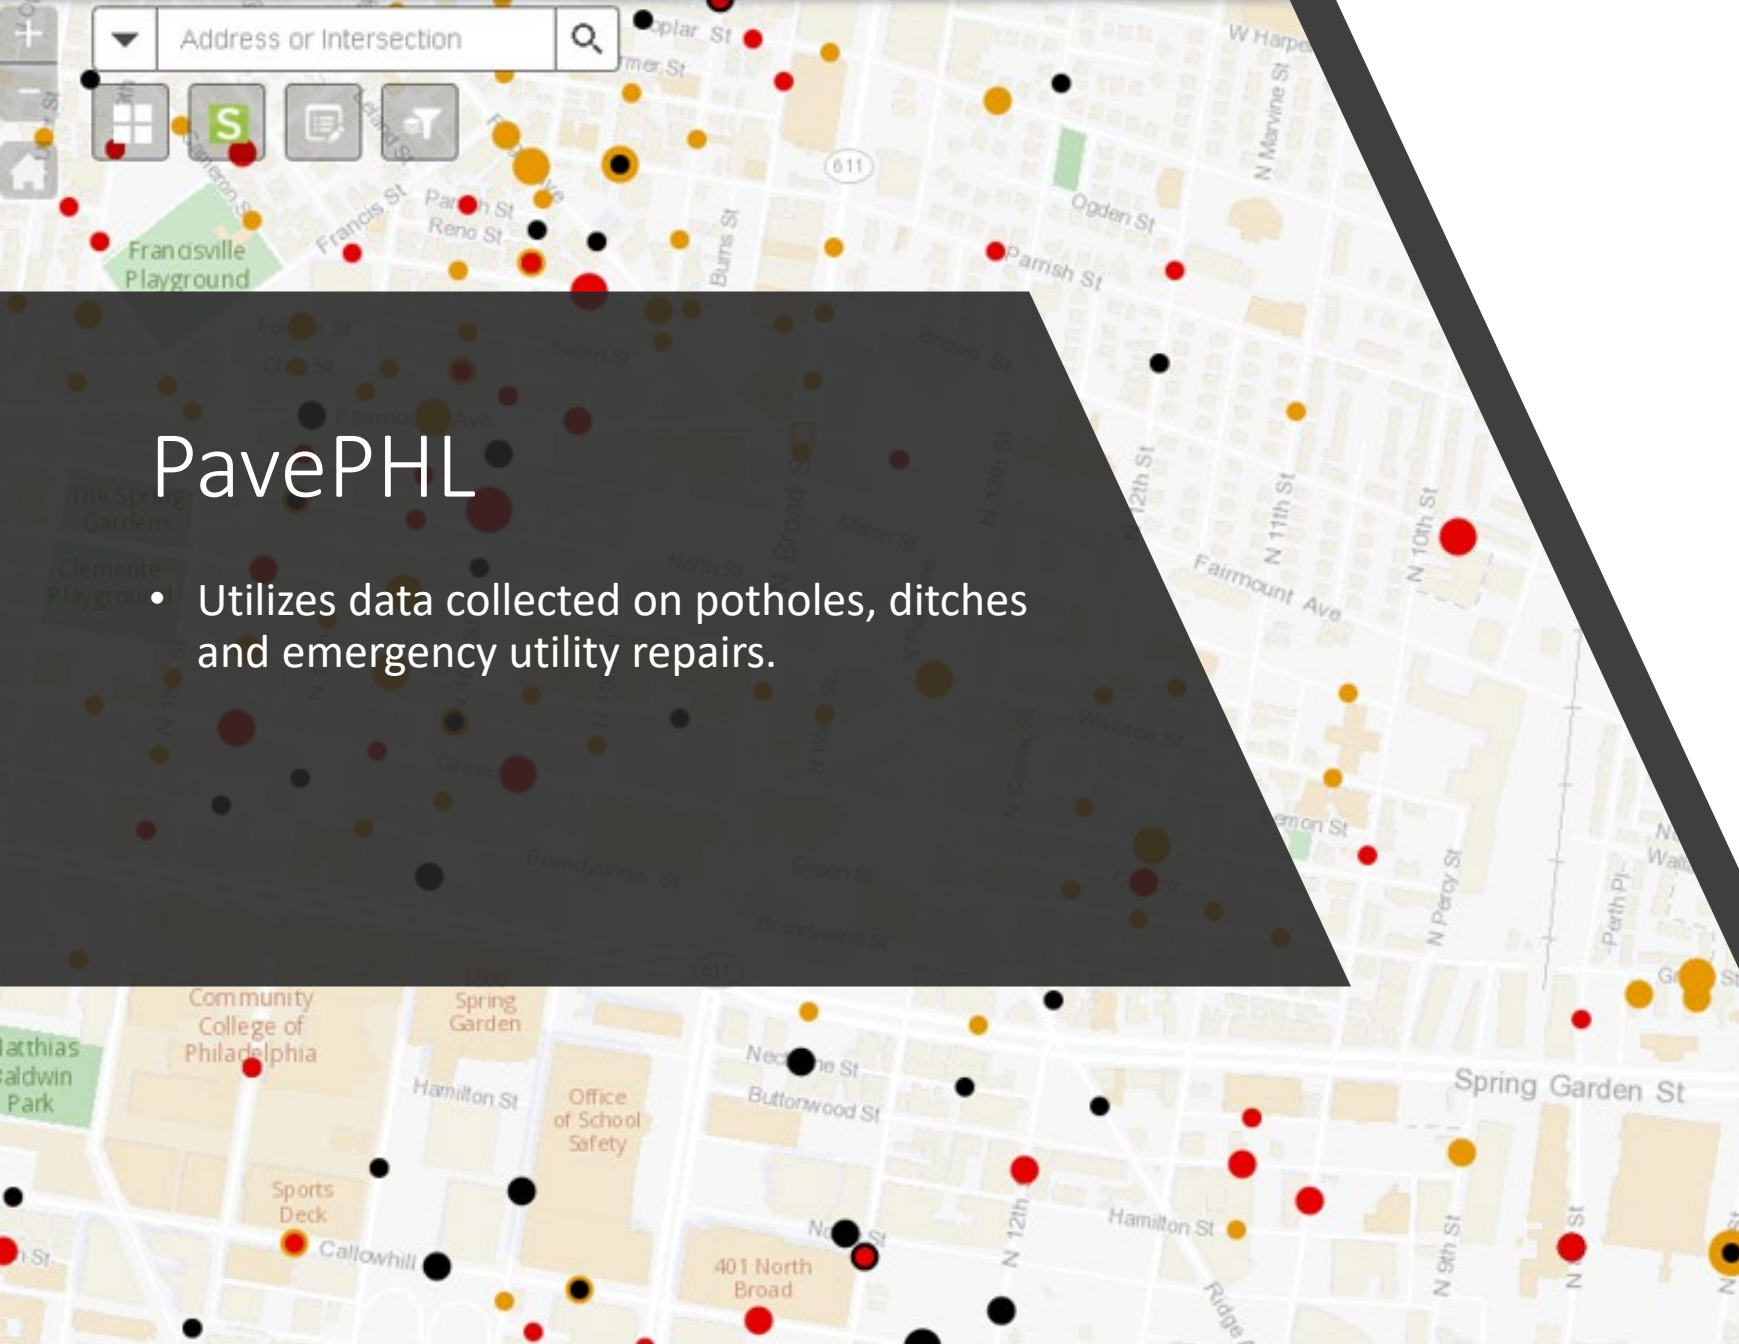

PavePHL

- PavePHL is an online portal that provides access to the Street's Department paving program.
- Illustrates street conditions; good, fair or poor.

PavePHL

- Utilizes data collected on potholes, ditches and emergency utility repairs.

PavePHL

- Provides improved coordination with public and private utility companies for street paving projects.
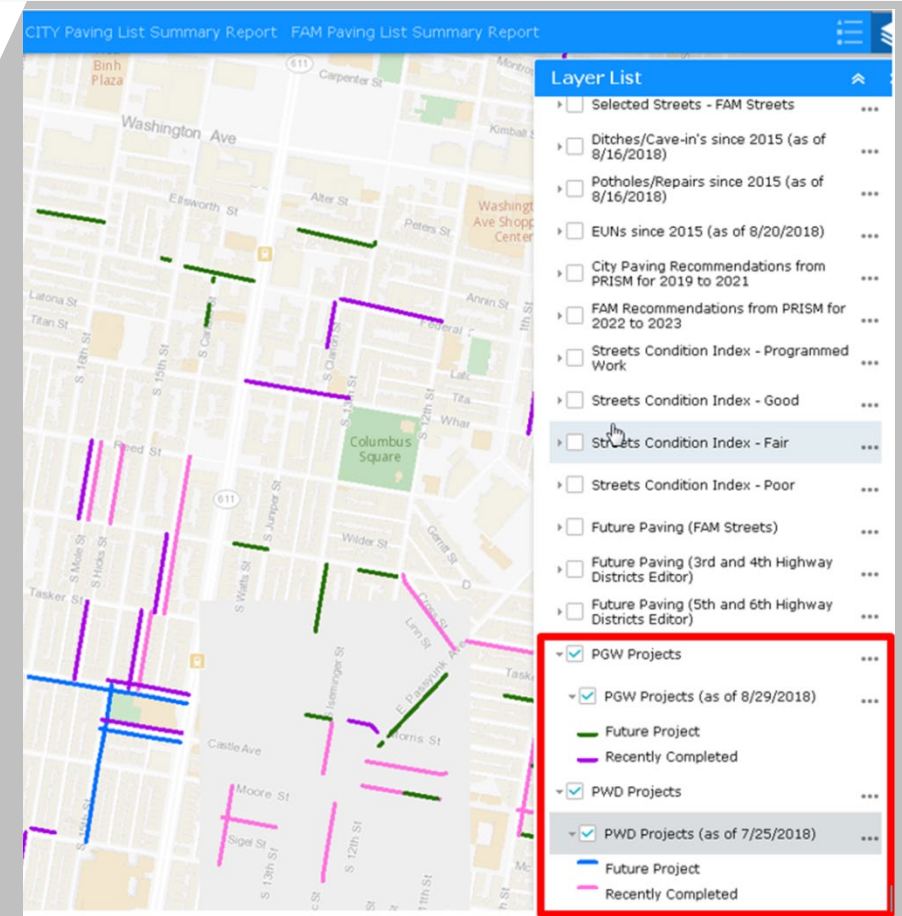

PermitPHL

- Permit PHL is an interactive mapping tool that provides easy-to-read information pertaining to permits for street closures.

- Provides information regarding street closure permits issued for construction projects, special events, block parties, detours and right of way information.

Sidewalk Closures

Partial Lane Closures

Full Street Closures

PermitPHL

- The Right-of-Way unit provides permits for closures related to sidewalks, parking lanes and partial, full or roving streets closures.

- Communication with the general public regarding these and other closures have been limited.

PermitPHL

- Provide streamlined real-time access to information obtained on permit requests for closures on city streets and sidewalks.

- Provide additional opportunities to interface with the public

- Provide an additional direct-line of communication to 311 for user reporting of issues related to street closures including hazardous conditions, closures causing conflicts and non-permitted closures.
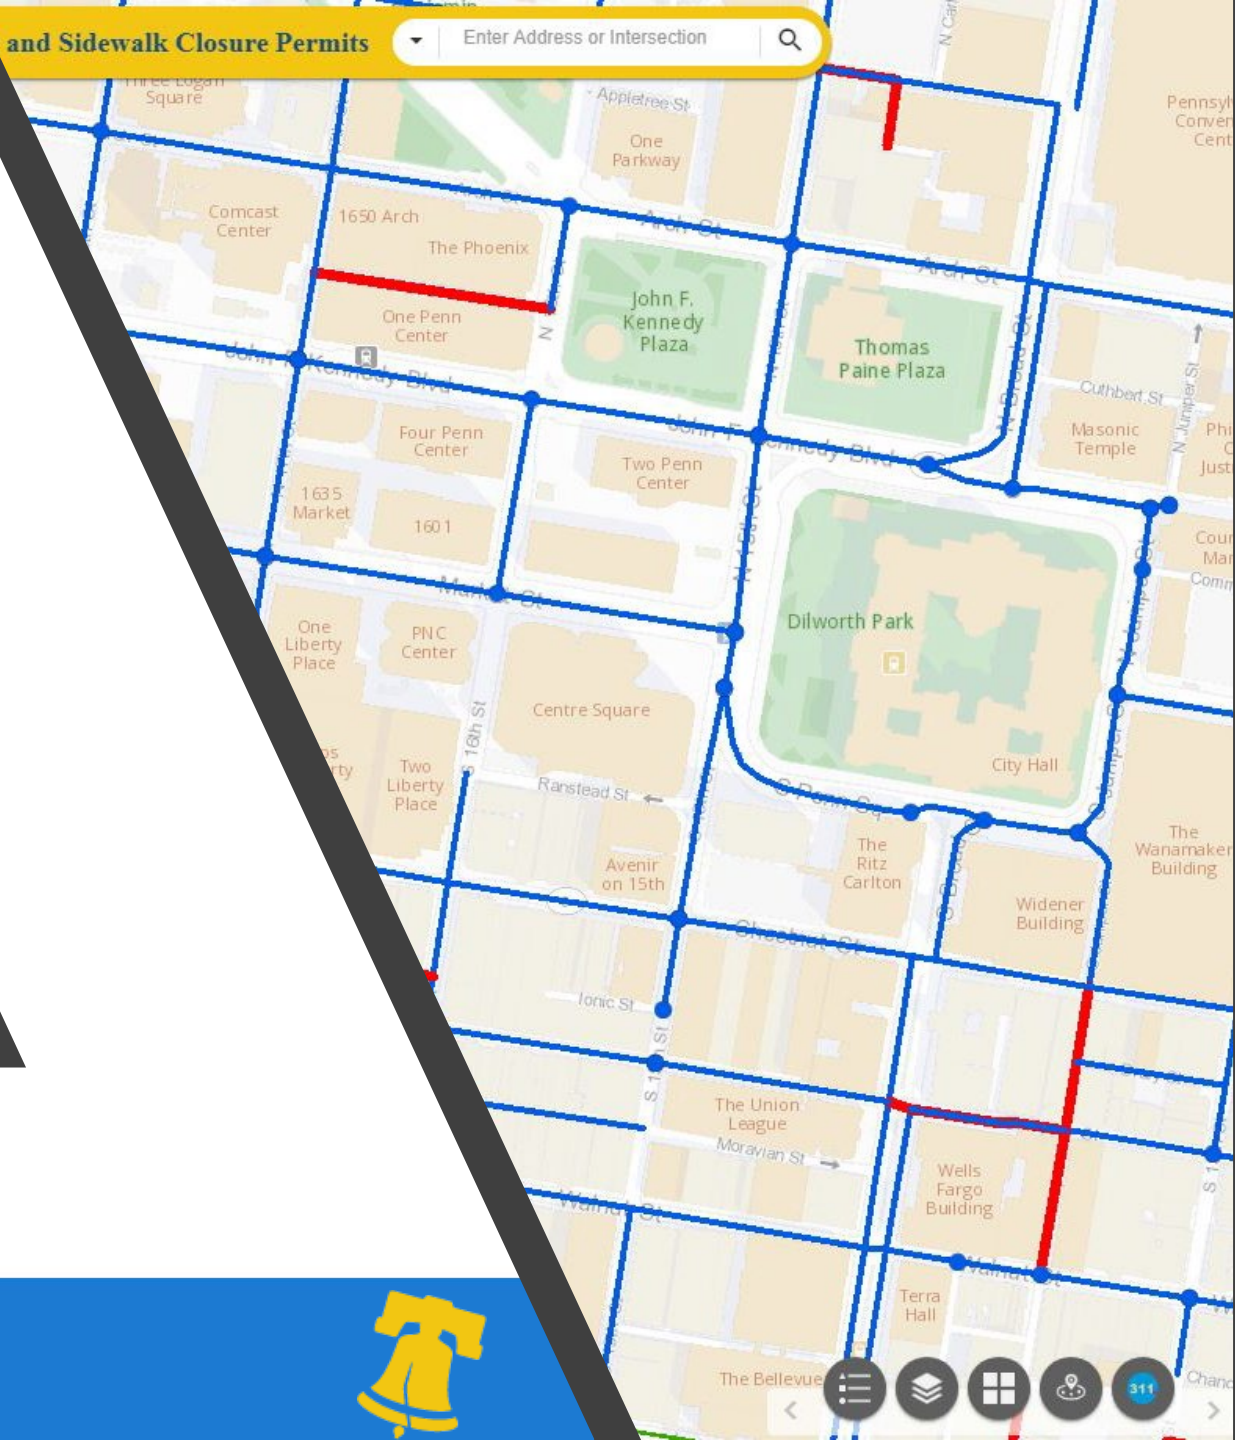

PermitPHL

- Visitors to the interactive web portal housing Permit PHL (stsweb.phila.gov/closephl/) are able to select a location by keying in an address or using the auto-locator function.
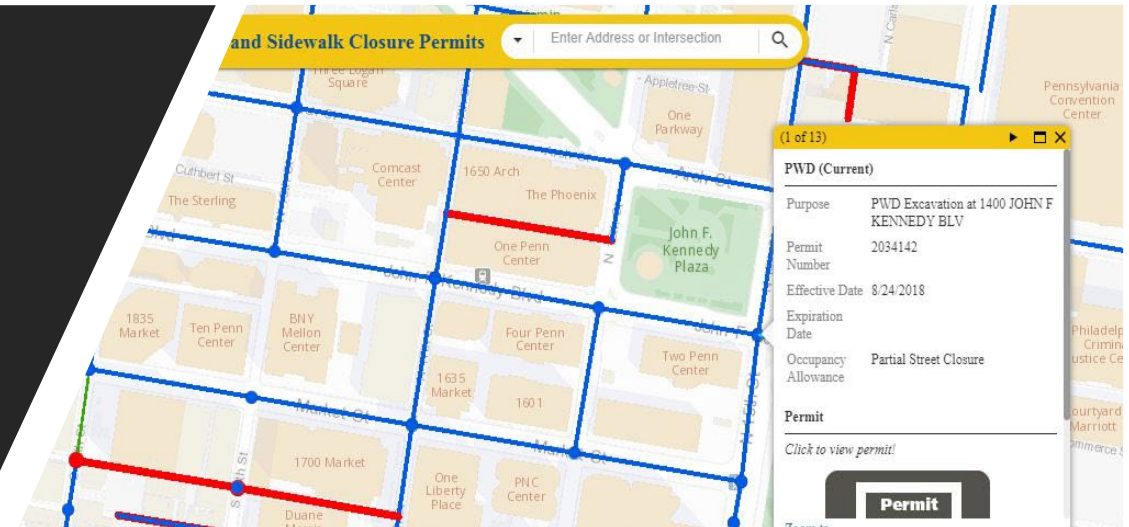

PermitPHL

- Users are then able to click on the segmented block or colored-circle to retrieve additional detailed permit information appearing in a separate dialogue box.
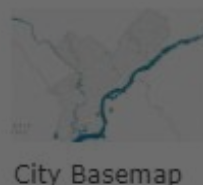

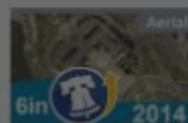

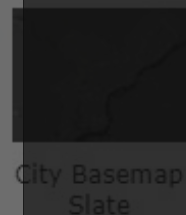

PermitPHL

- Functions of the site include a legend featuring six data points, an option to search permits near me, a layered section covering current and future closures, an opportunity to look at base map photos found in Atlas and the ability to submit a request directly to 311 from the site

PlowPHL

- Check the status of the Streets Department snow removal operations to learn which streets are plowed and passable during a snow event.

Location of Streets Plowed

Time Streets Plowed

PlowPHL

- PlowPHL is an online map portal for displaying information related to the Department of Streets snow plowing efforts during a snow emergency.

- The application provides access to information regarding recent plow activity at the street level and allows the user to perform searches based on location.
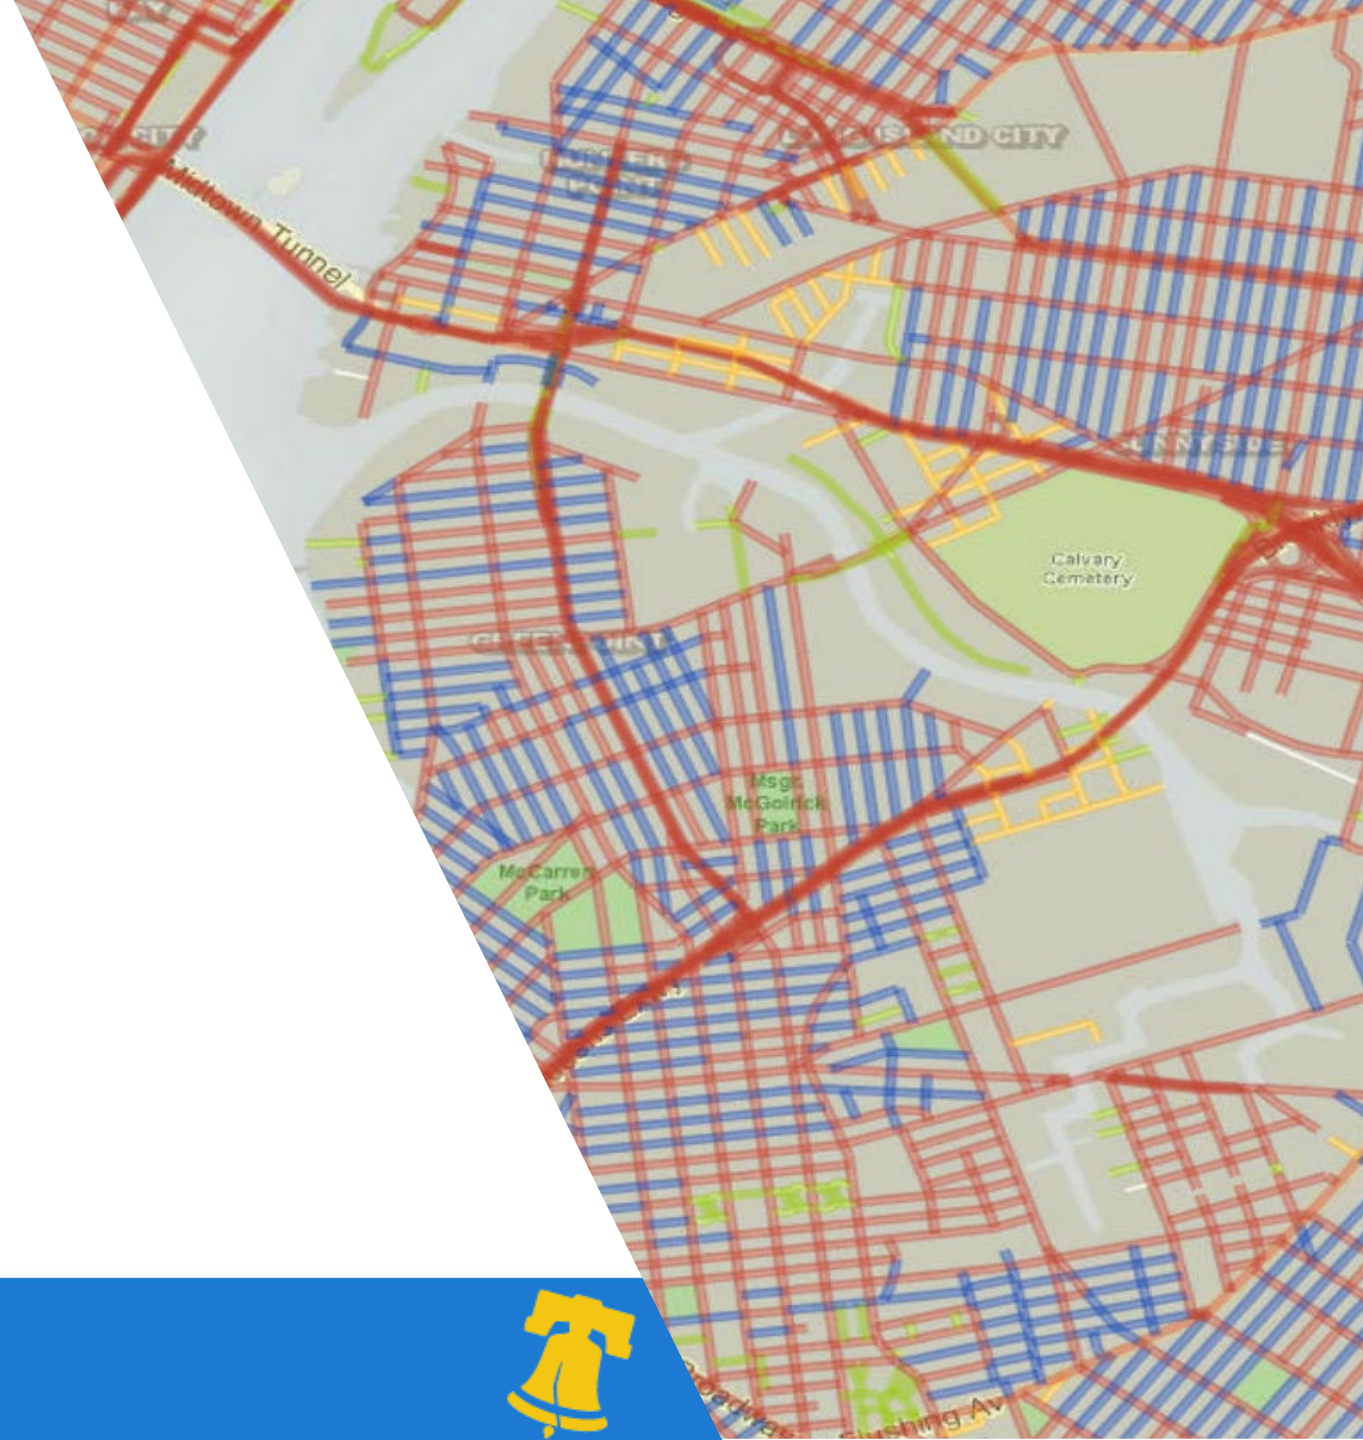

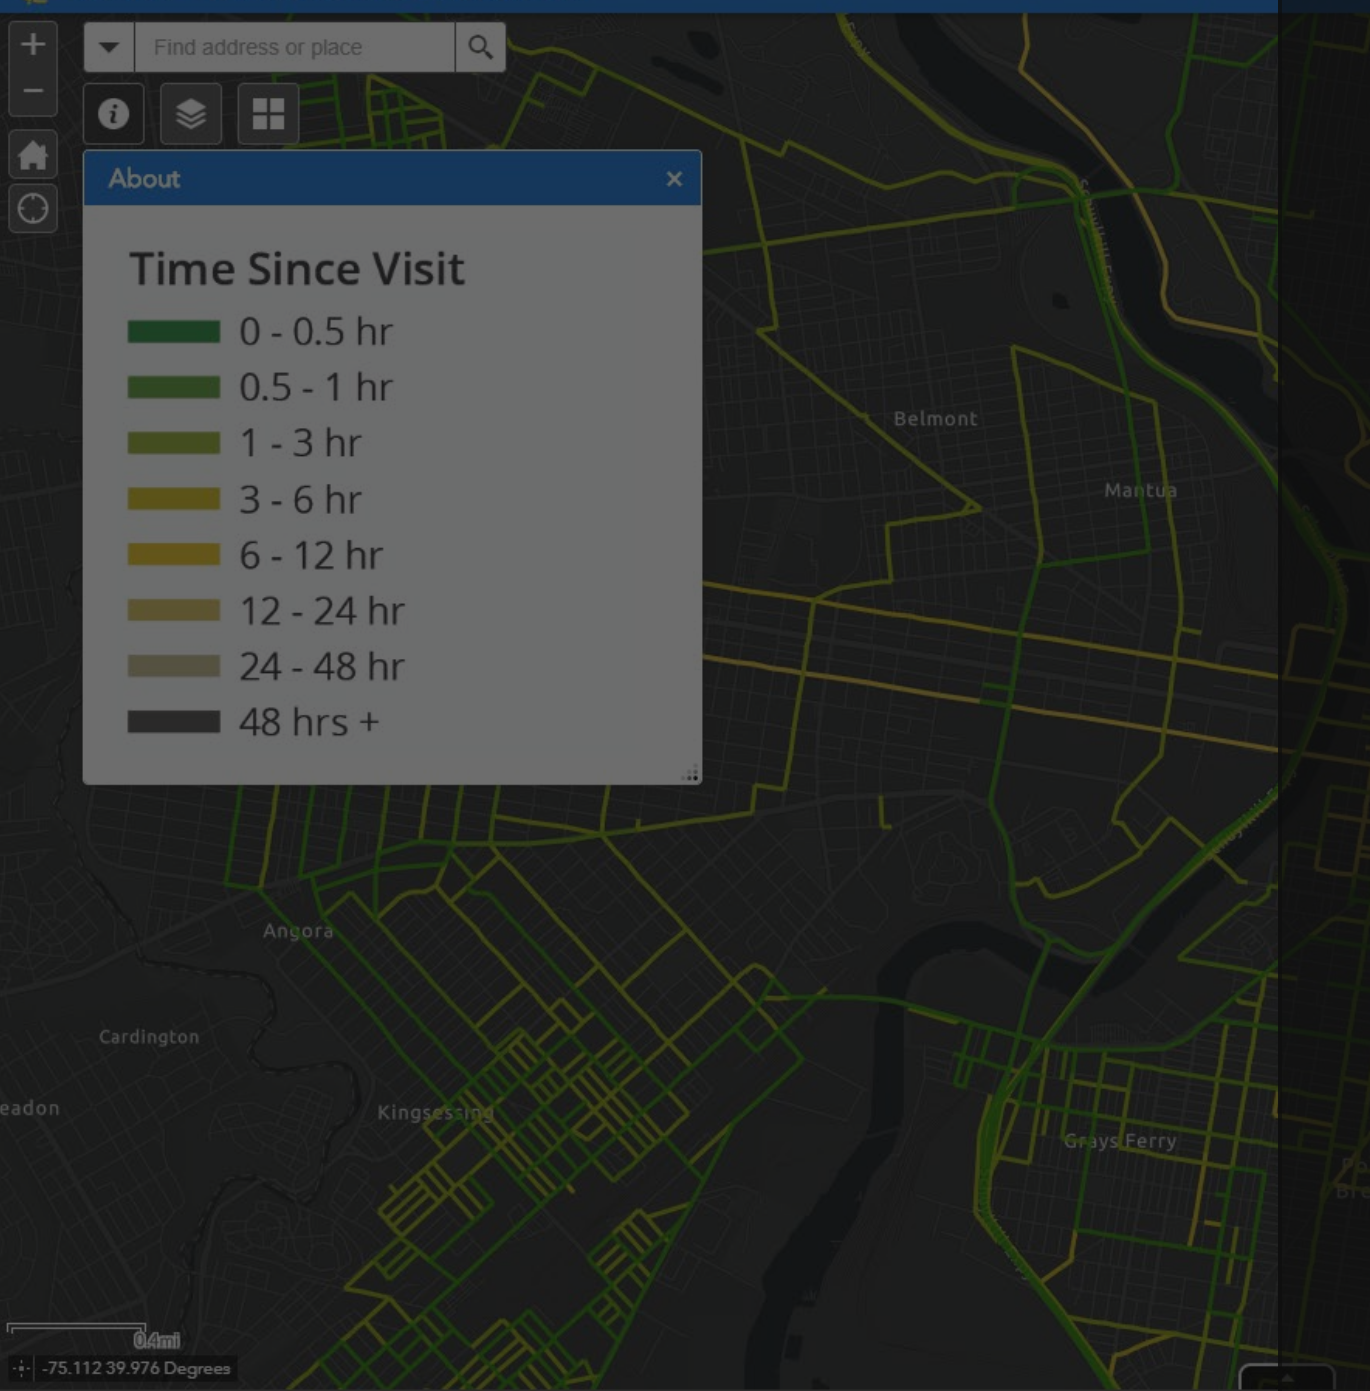

PlowPHL

- The pop-up can include last time a street was serviced as well as its snow removal designation.
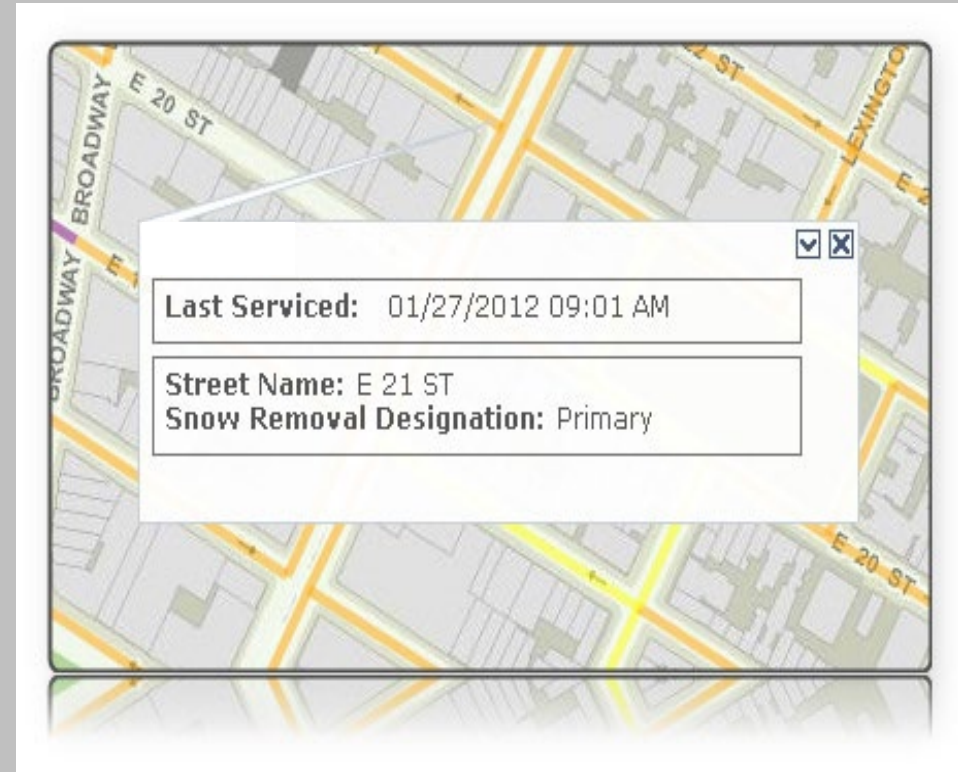

PickupPHL

- View the Streets Department solid waste collection services to determine the status of daily trash, recycling, bulk, leaf and other collection services.

PickUp PHL

- PickUp PHL allows residents to monitor Sanitation Division compactors in real time to determine if trash and recycling was collected in the neighborhood.
